

YOU'RE HELPING TURN OLD ELECTRONICS INTO NEW OPPORTUNITIES.

Suppliers and retailers are collecting an environmental fee on the sale of eligible new electronics as part of Alberta's Electronics Recycling Program – the first of its kind in Canada.

The fees are used exclusively to recycle your old, unusable electronics and keep them out of Alberta's landfills.

Environmental Fees

Televisions

18-inch screen and smaller	\$15
19-inch to 29-inch screen	\$25
30-inch to 45-inch screen	\$30
46-inch and larger screen	\$45

Computer Equipment

Computer monitors (LCD and CRT)	\$12
CPUs, including keyboard, mouse, cables, speakers, servers	\$10
Printers/printer combinations	\$ 8
Laptop and notebook computers	\$ 5

Visit ARMA's website for more information about product definitions.

Environmental fees are used for:

- the collection, transportation and recycling of old, unusable electronics
- research into new recycling technologies, and
- public information and awareness programs

THE

E-ROUNDUP CONTINUES!

Alberta's new Electronics Recycling Program has been helping folks round up old, unusable computers and TVs (and other electronics) since October 2004 – and keeping Alberta's environment healthy and clean for generations to come.

Over 100 municipal collection sites across Alberta are accepting old electronics including:

Televisions

Computer Equipment

- Computer monitors (LCD and CRT)
- CPUs, including keyboard, mouse, cables, speakers, servers
- Printers/printer combinations
- Laptop and notebook computers

Recyclers are taking the metals, glass and plastics found in electronics and turning them into new opportunities for Albertans.

Find the collection site, or e-roundup centre nearest you.
